Future Automotive Expo

2022 UIFA Expo Overview

For New Normal, Find New Way!

With the change of climate and the development of ICT technology, the global automotive industry centered on internal combustion engines is facing a big change. At a time when the paradigm of the automotive industry is changing, we are trying to create a foothold for domestic companies to find new ways. Please join UIFA Expo on the way to the new road.

UIFA Expo Overview

Name	ULSAN International Future Automotive Expo 2022
Date	Mar. 14(Mon.) ~ Mar. 25(Fri.), 2022 (12days)
Place	[Online] www.uifaexpo.com
Exhibitor	Automotive industry companies
Host	Korea Industrial Complex Corporation, ULSAN Technopark, Ulsan Institute for regional program evaluation
Organizers	AUTOIN, Future Automotive Mini Cluster (K-Mobility Cluster Association)

| 2021 Summary |

47
countries

67,000
visitors

100
exhibitors

2,800
participants

Export meeting
US\$ 45,602,000

① Set up digital booths for over 100 automotive companies

Focus on the attention of domestic and foreign companies at the digital booth consisting of total of 6 pavilions (Future Automotive Hall, Future Automotive IT Convergence Hall, E-Mobility Hall, etc.)

② Customized buyer matching conference

Total of 51 B2B matching conference with conducted after pre-consultation at the invitation of domestic and foreign carmakers and parts makers

③ Webinar with expert in the automotive industry

Web seminars by renowned domestic institution officials and professional technicians related to future automotive parts industries

2022 UIFA Expo Full Schedule

• Online Opening Ceremony (2022.03.14.)

* Air on Youtube and Zoom by Live

Time Line	Subject / VIP Guest		
14:00 - 14:20 Opening Ceremony	Opening	2022 UIFA Expo Opening	
	Opening Remarks	Chulho Song	Mayor of Ulsan
	Welcoming Address	Junghwan Kim	Korea Industrial Complex Board Member
	Congrats Speech	Manki Jeong	Chairman of KAMA (Korea Automobile Manufacturer Association)
	Congrats Speech	Don Kang	President of the K-Mobility Cluster Association
14:20 - 15:00 Keynote Speech	Opening Seminar	How Effect Automotive Industry from 2050 CO2 Emission	
		Yongwon Kim	Director of KAMA (Korea Automobile Manufacturer Association)

• Webinar (Web+Seminar)

* The contents of the webinar are subject to change.

Date	Topic	Subject	Guest Speaker
March 14th	[Key Speech] CO2 Neutral	Impact and Response to 2050 CO2 Neutral Related Automotive Industry	Yongwon Kim, Director [KAMA]
	Autonomous Driving	Status of Data Ecosystem Establishment Based on Self-Driving Real Road Demonstration	JiHyung Han, CEO [Autonomous a2z]
March 15th	Electric Parts	Supply Chain Stabilization Plan by Promotion for Future Automotive Industry	Dr.HangGu Lee [KATECH]
	EV	Technology Trends of Battery Management System for Electric Vehicle Battery	YooTak Kim, Sr. Researcher [KBIA]
March 16th	Autonomous Driving	K-Public Transportation System Innovation Technology Based on Autonomous Cooperative Driving	GyungPyo Kang, Researcher [KOTI]
	Future Automotive	Got to See Inside Parts, Core of Future Automotive	EunJu Kim, CEO [EMC Global]
March 17th	CO2 Neutral	Hydrogen Economy at CO2 Neutral Era	JoonBeom Kim, Professor [Ulsan University,Chemucal Engineer]
	Electric Parts	Electric System for Future Automotive	JooHan Lee, Director [Prior)Sambo Motors]
March 18th	Future Automotive	Smart Grid for Electric Vehicle Battery	SeKyung Han,Professor [Kyungpook National University Department of Electrical Engineering]
	Future Automotive	German Future Automotive Market Trends	Sophia Dietsch, Senior Project Manager [DTO Consulting GmbH]

• Purchasing Session

* The contents of the purchasing Session are subject to change.

Date/Time	Company name/Country	Topic	Guest Speker
March 21th AM10:00	WOOSU TMM / Korea	Purchasing parts for Micro Electric Vehicle	JongSang Noh, CEO
March 22th AM10:00	EDAG Group / Germany	How to work with German OEM'S and Tier1	JFelicia Stolfig, Key Account Manager
March 23th AM10:00	DRIVETECH / Korea	Purchasing parts for Mobility	YunYong Choi, CEO
March 24th AM10:00	Manouv / Indonesia	Looking for Korean potential suppliers	Iwan Sugata, Director
March 25th AM10:00	Prior)Daimler / Korea	Purchasing process and Trends of Europe automotive industry	JoongGyeom Kim, Vice President

• Buyer Matching Meeting

Global Sourcing Conference	Future Auto Parts Meeting
----------------------------	---------------------------

Exhibition Information

1. Digital Booth

2. Detailed Information

| Digital booth and privilege of participation |

| Basic Booth

The basic booth is a booth with basic promotional characteristics such as introduction of product and the company. It is a free booth where can do basic promotions from company CI to product introduction and video exposure.

CI : Link to company website

Video conference : Schedule, Matching of meeting, Inquiry

Introduction of product :
Company product or promotional image

Introduction of Company and product (pdf)

Display : Company promotional video and YouTube link

*Please note that this image can be changed as a sample.

| Digital booth and privilege of participation |

| Premium Booth

Premium booth includes the functions of basic booths and have differentiation in appearance. This is a booth that increased the matching rate with the buyer with various functions for smooth business communication.

CI : Link to company website

Video conference : Schedule, Meeting matching, Inquiry

Introduction of product :
Company product or promotional image

Introduction of Company and product (pdf).

Display :
Company promotional video and YouTube link

Exchanging business cards

*Please note that this image can be changed as a sample.

Video Conference

| Customized Online 1:1 Buyer Matching Conference |

With customized non-face-to-face business meetings between global automotive buyers and domestic SMEs, we aim to create MOU and achieve \$2 million in exports by finding new projects, reducing costs, and meeting the needs from global buyers.

Analysis of the needs of automotive industry companies and matching global buyers

Interpretation service for proper matching between overseas buyers and companies

Continued performance creation and analysis through follow-up management of conference tracking and platform-linked.

Webinar

| Webinar with expert in the automotive industry |

Online webinar will be held on various topics related to future cars and auto parts inviting speakers such as E-mobility, future car IT / electric parts, external industries, etc.

Composing in-depth topics of experts related to future automobiles and auto parts

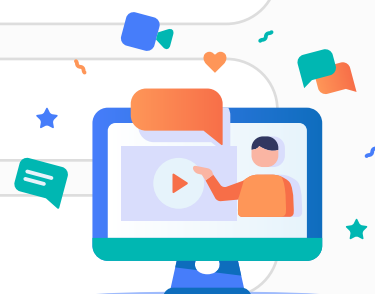

Advanced lectures on future cars that the public can attend

Suggesting directions for future automobile markets and policies.

Activation of Q&A related to webinar lectures

Briefing of Purchase policy

| Online briefing on global purchasing policy |

Online briefing will be held on the rapidly changing future auto parts development and purchase policy invited the purchase and development teams of domestic and foreign automakers and primary parts makers.

Information on participating companies

As a company participating in the 2021 UIFAexpo, numbers of companies from related industries such as parts companies related to internal combustion engines, parts companies related to future cars, and after markets participated.

2022 UIFA Expo

Participating Companies

AUTOTOP

Car engine parts

JUNGIL ENG

M&A for mufflers

Top Tooling Systems

C-jet coolant pressurizing direct spraying tool holder

DRIVE TECH

Vehicle system of e-mobility, Motor system

JFM

Rubber, tire production equipment

JOOEUN TECH

Automobile parts produced

KAMRI

Global Cooperation Research Institute

Innoble

Eco-friendly automotive components industry

WONSAN E.T.S

Industrial filter

SSPOUTS INTERNATIONAL

Coolant Additive - Cure Max

YOUN YOUNG TECH

Functional bolt, bolt-washer ass'y

Sunil dyfas

Bolt, cold forging, safety parts

TAMA

Automotive Parts Manufacturing Association

Kostecsys

Manufacturing of diodes, transistors, and semiconductor devices

Karko

Parts for autonomous driving and remote control system

VITonet AP

Power window glass-run

CHEONWOO

Shock absorber

WOOSU AMS

Transmission motor

DAESHIN BRAKE

OEM brake

JEONWOO PRECISION

Airbag inflater

Daeatube

Automobile PVC tube, Nylon tube

SAMHYUN Corporation

Automotive core component

YoungIn ChROMASS

Mobile spectrometer and automotive engineering

YOUNG JIN

Prototype of BLDC MOTOR for industrial use

Mfam

BB Spray (Automobile Painting Coating Agent)

JUNGWOOAUTOMOTIVE

Water pump manufacturer

K.JIN (China)

EGR valve and cooler

DTO (Germany)

B2B research

UPT

Car interior parts

Central Corporation

Car parts

WON PRECISION

Injection mold manufacturing

HYUNDAE METAL

Air vent, bolt

YOU-IL Precision

Development of electric vehicle chassis

GEO Nation

Metal surface treatment technology

Trebax Solutions Pvt. Ltd.(India)

Online machine service

TOPTECH

Parts for automobile powertrain

HRS

RTV-conformal coating agent for electricity and electronics, heat-resistant adhesive

Ohsung Electrics Machinery

Wiring harness

SM AGV

Unmanned transportation

Sammi Precision

Welding assembly automation equipment

Yuratech

Parts related to internal combustion engines in automobiles

MarkLines (Japan)

Automobile industry portal business

Quest Ventures (Singapore)

Investor

Maluco Bureau (Mexico)

Customer Digital Experience for Automotive Companies

2022 UIFA Expo

Participating Companies

AUTOIN Inc.

Car parts platform service, Online Marketing

LATTRON

Temperature sensor, Wire harness

AutoL

Autonomous vehicles

EDAG Group (Germany)

Engineering service provider in the automotive industry

K-Mobility Cluster Association

Running a mini cluster of cars

Oh sung eng service

Diesel car engine

UEPA

Comprehensive support for SMEs

Korea Industrial Complex Corporation

Innovation institution in industrial complex

Korea Forging

Forging parts

Dongnam Precision

FR FEM BRKT, RR SIDE MEMBER, FR LOWER MEMBER

WOOSU TMM

Key components of ultra-small electric vehicles

U.N.T

Welding jig for laser

Korea BTS

B2B Battery Pack Solution

HYOSEONG ELECTRIC

Hot Runner mold development

DSP

Automobile exhaust system

DAEJIN COMPANY

Heat treatment and mechanical equipment parts

TUR-IN ROAD

Parking Bollard, Nino Coating

SEJONG INDUSTRIAL

Key components of hydrogen-electric vehicles

JIN HUNG

Car interior and exterior materials

BARUN TECH

Small car electrical components

Labsystek

Quarantine system, special tape

Ulsan link plus

Industry-Academic Cooperation Leading University

HANJOOMETAL

Knuckle/carrier, battery housing/tray

RT-Solution

Reliability test equipment

INNOTESS

Apparatus and technology for evaluating secondary battery

ESP

Embedded development service

TOP IND

Electric vehicle, BIW

Oh Sung Tech

Die cast molds

SUNGIL ENTERPRISE

Car parts interior material

AUTOREX

Customizing and developing special cars

SSVCC

Electric vehicle controller

DONGEUN CHARGER

High frequency charger, battery

INTERTEK

Electric vehicle driving test evaluation

Kum Young ETS

Car parts, electric car powertrain

Dongkook Ind

Crash pad main, Cover assy-cowl top

Nifco Korea

COCKPIT, Console, Fuel Tank, Seat Belt

Autonomous a2z

Self-driving software

SEOYON E-HWA

Door Trim, Pillar Trim, Package Tray, Screen Assy

SAMKI IDUSTRY

Jack Set, FUEL TANK BAND, TRANSMISSION PARTS

HANGUK MOLD

Injection Mold

Duckyang Indstry

Cockpit Module, Instrument Panel, Door Trim, BMA, ESS

S&B

Automotive interior materials
