GREETING

TAMA(TOP AUTO PARTS MANUFACTURE ASSOCIATION Corp) was established as a nonprofit organization in 1997. It pursues to promote the membership among manufacturers and to develop the automobile parts industry. TAMA consists of manufacturers of automobile pares & it's accessories. Automobile industry, as the essence of machinery industry, is playing a leading role in national economy. Thanks to domestic needs and mass export, the needs of motor car parts are on the increase. Especially this industry has been developed a lot by contributing directly towards automobile industry growth. With advanced design, cost effectiveness and ultra-high technology, the products have been achieved great reputation in the world marked. As globalization and the structural adjustment of world automobile industry are progressing faster than expected, international cooperation and information exchanges are necessary more then ever. Therefore, Top Auto parts Manufacture Association Corp. (TAMA) has made this website to convey the members up to date information, technology, and the trend of the car world. Even though the country is confronted by hand time, the members shuld get through this crisis with challenge spirit. please trust us and select our products. In addition, we hope this website to be a valuable information for all the persons concerned with Korean motor car parts. Thank you very much.

About Us

We, AUTO TOP Co., are a Korean manufacturer of auto parts that specializes in producing water pumps, oil pumps, damper pulleys and thermostat all of which are crucial for automobile engines. Our company has set about production with ceaseless research and development and continuous quality management since 1993. As a result, our quality excellence is recognized in overseas markets as well as domestic. AUTO TOP produces the largest quantity of water pumps, oil pumps, damper pulleys and thermostat for automobiles in Korea. In addition, we also supply these parts for Japanese, American, and European cars as well, and are currently exporting our products to more than 50 countries worldwide. Our mission is to become an international auto parts manufacturer based on accumulated product development capabilities, quality competitiveness, and customer's satisfaction. We guarantee that we will do everything we can to meet the various needs of domestic and overseas customers.
